

# SWP

**ProFlo**  
Professional  
Grade Pumps™

The Deep Well  
Diaphragm Pump-  
Compact performance  
that's potable water safe.

## Typical Applications

Agricultural

Potable water safe, the new SWP-4000 Submersible Pump combines the quality you expect from a Remco product with the unique versatility of a fully submersible pump. Built for rugged conditions, the SWP-4000 is able to pump 1.25 GPM from a depth of 230 feet! Remco also offers a variety of Easy Connect fittings and filters.

-  Corrosion resistant stainless steel construction
-  Built-in stainless steel mesh screen
-  Compact - fits 4" Bore
-  Potable Water Safe
-  Easy connect dual fitting

### PUMP

**Type**  
Submersible diaphragm pump.

**Max Pressure**  
230 Ft / 70 Meters

**Outlet Port**  
Dual-Size Stainless Steel Outlet Nipple Fits 1/2" Hose Barb Tubing (0.50 Inch ID) or 1/2" Poly Pipe (0.62 Inch ID)

**Weight**  
10.0 lbs

### MOTOR

**Leads**  
18 AWG, 36 in. long. Protected from Moisture Intrusion by double-O-ring seals and anti-wicking lead bases

**Voltage**  
12VDC, 24VDC, 30VDC, 115VAC

**Power Requirements**  
Designed to Operate from Any 12-30 VDC Power Source, Including 72 Cell Series Arrays, 60 or 72 Cell Modules or 12 or 24VDC Battery Banks

**Duty Cycle**  
Continuous
